[New Year]The happiest New Year's Resolution for 2019: one dollar. In the last couple of years, the value of the dollar has increased: he has passed the \$1 mark, and it is expected that in the coming months, the dollar will continue to rise. If you are using these 1080p TV for a long time, you can take advantage of the hardware more (monitoring, recording, video editing), while with a lower resolution TV becomes less effective. The 90cm TV can be the correct size for your living room, but if the images appear smaller than usual, you can always get the appropriate size of the TV. The resolution of the TV can be 60 or 50 inches, according to your needs. Although we have many high-definition TVs with very high resolution, such as 4K, ultra high definition, but actually most of the time we do not see the benefits. For most people, HD resolution (1080p) is perfect for the highest quality experience. The main features of the TV of today are: - Black screen and white wall - Full HD 1080p resolution - Picture-in-Picture / Picture-in-Picture modes - Use of four HDMI ports - Smooth function of the touchpad remote - USB port to connect the TV to the computer - Built-in speakers - Built-in AC or DC / dimmable - Dimension 90cm - 300mm (3.5ft - 12.5in) - Weight 100kg (220lb) - Focus: according to the budget.
